About CUSAT</h5> <!-- End Header Image -->
<!-- Text Container -->

    <h4 class="sub-headline blue-bold-heading mt-4">The Past</h4>

        Originally known as University of Cochin, the University came into being
in 1971 through an Act of the
        Legislature that was the result of a concerted campaign for quality
postgraduate education in the State of
        Kerala.

        Reorganization of the University into Cochin University of Science and
Technology (CUSAT) saw the fulfilment of
        the aspirations of the pioneers that spearheaded the movement for
establishment of a science & technology
        university in the State. The process of reorientation resulted in
redefining the objectives as “the
        promotion of graduate and post graduate studies and advanced research in
applied science, technology, industry,
        commerce, management and social science.”

    <h4 class="sub-headline blue-bold-heading mt-4">The Present</h4>

        Cast in the mould of a federal University, distinctly different from
other universities in the State, today
        CUSAT is a premier Science and Technology University of the country.
While striving to live up to the

expectations of the society, the University has made quantum leaps in its academic pursuits and has spread its
wings far and wide to encompass new and emerging frontiers across the academic horizon.

CUSAT is academically structured into 9 faculties: Engineering, Environmental Studies, Humanities, Law, Marine
Sciences, Medical Science & Technology, Science, Social Science and Technology.

It has at present 26 Departments of study and research offering Post Graduate programmes across a wide spectrum
of disciplines in frontier areas of science and technology. The Centre for Engineering Studies additionally
offers several graduate programmes in engineering and technology.

During the last three decades of its existence, CUSAT has registered steady growth and has earned recognition as
one of the highly reputed and internationally acclaimed Indian Universities. The University has academic links
and exchange programmes with several institutions across the globe. The emergence of CUSAT as the single Indian
University to be chosen for long-term financial assistance by the Government of Netherlands under the MHO
programme eloquently testifies to its proud record of academic achievements and strengths.

<h4 class="sub-headline blue-bold-heading mt-4">Centres</h4>

To encourage and promote collaborative, multidisciplinary interaction Centres in specialized, thematic areas
were established in the University during the past couple of years.

Conceived to act as umbrella organizations for facilitating inter-faculty interaction and joint enterprises that
aim at wholesome integration, assimilation and dissemination of knowledge beyond all sectarian confines, these
Centres are expected to engage themselves in unfettered intellectual pursuits.

<h4 class="sub-headline blue-bold-heading mt-4">Recognized Institutions</h4>

By according the statutory status of â œRecognized Institutionâ , the University has brought under its larger
domain, a host of professional institutions, national laboratories and research organizations of repute in the
State. This has catalyzed the spread of quality education and has paved the way for healthy interaction between
academics and scientists.

<h4 class="sub-headline blue-bold-heading mt-4">The Future</h4>

The mission of the University is to make distinctive and eloquent contributions to the cause of higher education
in science and technology. CUSAT has pledged to strive to offer teaching of the highest quality and to engage in
research and scholarship that will contribute to the advancement of knowledge in leaps and bounds.

In keeping with the motto of the University; “Tejasvinavadhithamastu”, which conveys, “May

```
            learning illumine us both, the teacher and the taught&rdquo;</em>,
the atmosphere in the campus is vibrant
        and intellectual. CUSAT is always on the move, girding up its loins with
grit and determination to unravel the
        myriad, unexplored mysteries of knowledge.
    </p>

    <h4 class="sub-headline blue-bold-heading mt-4 mb-3">Statutory Bodies</h4>
    <p class="blue-bold-heading">The Syndicate</p>
    <p>The Syndicate is the chief executive body of the University comprising
seventeen members and presided over
        by the Vice - Chancellor. It has powers for general superintendence and
control over all its institutions.
        The Syndicate normally meets once a month.</p>
    <p class="blue-bold-heading mt-3">The Senate</p>
    <p>The Senate, comprising eighty-three members, under the chairmanship of
the Vice-Chancellor, reviews the general
        policies of the University and suggests measures for improvement and
development, from time to time. The Senate
        normally meets once in four months.</p>
    <p class="blue-bold-heading mt-3">The Academic Council</p>
    <p>The Academic Council is the principal academic body of the University and
has powers to coordinate and exercise
        general supervision over the academic programmes and policies of the
University. It is also responsible for the
        maintenance of standards of instruction, research, education and
examination within the university. It comprises
        one hundred and twelve members and is presided over by the Vice -
Chancellor. The Academic Council normally
        meets once in four months.</p>
    <h4 class="sub-headline blue-bold-heading mt-4 mb-3">Other Statutory
Bodies</h4>
    <p class="">These include the Faculties, Boards of Studies, Departmental
Councils, Planning Committee, Finance
        Committee, Staff Council and the University Appellate Tribunal.</p>
    <p class="blue-bold-heading mt-3">The Campuses</p>
    <p>There are three separate campuses, two in Cochin and one at Pulinkunnu,
about 65 km south of Cochin.</p>
    <p class="blue-bold-heading mt-3">The Main (Trikkakara) Campus</p>
    <p>The Main Campus is located ~1 km off the National Highway 47 at South
Kalamassery. About 180 acres in
        extent, it houses the academic Departments / Schools in all the
Faculties except in Environmental Studies
        and Marine Sciences, the Administrative Office, the University Library,
the student hostels and staff
        quarters besides other support services.</p>
    <p class="blue-bold-heading mt-3">The City (Lakeside) Campus</p>
    <p>The Lakeside Campus, ~12 km away from the Main Campus, has an idyllic
setting in the heart of the City on
        the estuarine water front. The Departments / Schools in the Faculties of
Environmental Studies and Marine
        Sciences are located in this Campus alongside a hostel for men
students.</p>
    <p class="blue-bold-heading mt-3">The Pulinkunnu Campus</p>
    <p>The recently acquired Pulinkunnu Campus in Kuttanad (Alleppey District)
is about 65 km away from the Main
        Campus. Kuttanad comprises Keralaâ ™s serene, picturesque backwaters,
the enrapturing scenic beauty of which
        is to be seen to be believed. The Pulinkunnu Campus is home to the
Cochin University College of Engineering,
        Kuttanad (CUCEK) and the Cochin University College of Computer
Applications (CUCCA).</p>

About Department</h5> <!-- End Header Image -->
<!-- Text Container -->

The Department of Computer Science came into existence in 1984 with an M.Tech. course in Computer and
Information Science, which was the first in the state of Kerala. In 1986, the Department was identified by the
Defence Research and Development Organisation for conducting an M.Sc. programme in Computer Software, as a
feeder course to the DRDO Laboratories. The department served as a seeding agent for the establishment of
Computer Centre, which was inaugurated by the then Prime Minister in 1990,. The department was entrusted with
the responsibility of conducting the MCA programme in June 1994, which helped to streamline the course and
setting it into the right track. The B.Tech. course started in 1996, was given co-ordinating support by the
department in the branch of Computer Science & Engineering. A new M.Tech. programme in Software Engineering
sponsored by UGC was also started in the academic year 2000-2001.

Ph.D. programme in the areas of Artificial Intelligence, Networking, Information Systems Engineering etc. are
being pursued.

The department has so far received grants to the tune of Rs. 10 crore from various national agencies. The
INFOCUS project with support from the Netherlands Government and collaboration of the Delft University of
Technology was co-ordinated by the department jointly.

The campus intranet, the CUSAT website, the campus intercom system are all managed by the department.

The department provides technical expertise and support to various Government/Quasi-government bodies.

parttime_01.jpg"
                             alt="M.Tech Computer Science and Engineering (Data
Science and
                    Artificial Intelligence) [Part-Time] Image"
                             class="img-fluid courses-image">
                    </div>
                    <div class="col-lg-8 p-3">
                        <p class="mt-3">This programme is specifically designed
and offered in response to the
                            rapidly developing field of data science and AI that
are currently gaining
                            unprecedented traction in the industry as well as in
the job market worldwide. As
                            such, there will be rich opportunities for specially
skilled graduating students to
                            work across multiple domains of the digital economy
and participate in enhancing
                            Indiaâ ™s global competitiveness. The programme
hence aims to produce the next
                            generation of highly skilled post graduates that are
required to continue propel the
                            high-value economy growth of our country. This
programme strikes a balance between
                            Computer Science, Statistics and Mathematical
Sciences, which enables it to provide
                            a more comprehensive training in terms of the
computing aspects of data science. It
                            is also system-and-product driven in that it covers
the essentials in software and
                            product development, and it provides students with a
large amount of practical
                            trainings.
                            <br> <br>
                            The programme is structured to equip students with
the following:</p>
                        <ol class="text-list">
                            <li>To impart principled understanding of data
Science field</li>
                            <li>To understand methods to extract non-obvious and
useful patterns from large data
                                sets
                            </li>
                            <li>To acquire skill sets required for a data
scientist</li>
                            <li>To build machine learning models for challenging
problems</li>
                        </ol>
```

                        <p class="mt-3">Five Year Integrated M.Sc in Computer
Science (Artificial Intelligence and Data Science) Programme prepares students
to perform intelligent data
                            analysis, which is a critical component in numerous
real-world applications. Data
                            science has emerged as one of the most high-growth,
dynamic, and lucrative careers
                            in technology during the past ten years. This
```

```
program provides rigorous training in
                            data science, machine learning, and data modeling
with intensive industry-based
                            exposure. This program aims to equip students with
multidisciplinary skills across
                            computer science, machine learning, statistics, and
logic. Data scientists have
                            career opportunities in healthcare, business, e
Commerce, social networking
                            companies, climatology, biotechnology, genetics, and
other vital areas. The central
                            focus is to equip the students with statistical,
mathematical reasoning, machine
                            learning, knowledge discovery, and visualization
skills.

        <h4 class="sub-headline blue-bold-heading mb-3">Research Facilities</h4>
        <p class="mb-3">While the major focus of research is on Information
Systems, the departmental research
            interests span the Computer Science spectrum, as well. Recent
publications cover topics in
            Human-Computer Interaction, Information Security, Networked Embedded
Systems, Natural Language
            Processing, Software Engineering, VLSI, etc. Students are made to
involve actively in research
            projects and many of them co-author technical papers and give
conference presentations. The numerous
            refereed publications that have resulted from Masters theses,
research work and projects testify the
            quality of research. DCS research potential is reflected in the
grants from the Ministry of Human
            Resource Development for thrust area research.</p>
        <h4 class="sub-headline blue-bold-heading mb-3">Research
Laboratories</h4>
        <p class="mb-3">The research laboratories have been developed/augmented
using the 2007 MHRD grant.</p>
